

**Yellow Texture for Bright Gold**

A Yellow Texture paste which fires very shiny. Fire 800deg.

It is excellent as a textural base for gold.

**Scratching/etching** designs on this paste is easy and smooth.

**To Apply:** Brushing, Dry Grounding, Wet Grounding, Texture with a textured sponge, mix with pen oil and pen on your design.

**Water based Medium** – it can be also applied with Water based Medium. Mix with GCC Water based Medium to a sponging consistency. Mixed with this medium, the application will dry very hard.

**Wet Grounding** – Mix with Lee's Wet Grounding oil and sponge.

**Traditional Scrolling** – Mix with a heavy Copaiba based medium such as 8-1-1 or porcelain Palette Medium to a scrolling consistency.

**Penning** – Mix with Pen Oil to a penning consistency . Pen on design. Fire 800deg.

**Experiment.**

**After firing, LB Gold is applied over. The Gold will fire shiny.**

**Copper Lustre can also be applied over.**

Fire Gold or lustres at 750deg.

NOTE: this paste is not suitable for Burnishing Gold.
